Its minesweeper, if you liked minesweeper you'll like this! (music is awful though). Mine sweeper with hexagonal cells. You have two play mode: Campaign and quick mode. In campaign mode you need money to unlock harder boards that gives you more money and exp. points. Seems fine, but is not. Finishing a "free" level give you 10\$ so you need to grind money by finishing the same levels again and again, and after investing you earned money, you just hit a mine in the first move.. I have no idea how to play this game.. I'm a very big fan of sapper, and I liked this game. The non-standard approach introduces novelty, though the very implementation with hexagons came out rather mediocre. It is rather independent of the usual sapper. So go, take it.. I have no idea how to play this game.. Quite an interesting puzzle. In it, we need to clear the field of mines. You should rely on tips written on the ground, although often your own intuition will be useful. There are two modes in the game - a company and a fast game. There are also many achievements in the game.
